## Egypt's Grapes. The World's Standard:

From the sunlit soils of the Nile Delta to the skilled hands of our partner growers, Monmon Vineyards exists to deliver one thing: the finest grapes Egypt has to offer—grown with care, packed with precision, and shipped with pride.

## Why Egypt?

Egypt offers one of the earliest harvest windows in the Northern Hemisphere, making it a key global source for grapes from May to November. With fertile soils, ample sunlight, and ideal climate conditions, Egyptian grapes are known for their vibrant color, firm texture, and exceptional natural sweetness. These unique characteristics have made Egypt a rising star in global grape exports—and Monmon is proud to be part of that story.

## Our Growers, Our Partners:

At Monmon Vineyards, we build partnerships with farmers. Through our training and co-op programs, we work closely with local farms to share best practices in irrigation, pruning, and disease management. Many of our growers are part of our contract farming system, giving them direct access to export markets while ensuring our clients receive consistent, high-quality fruit. Each farm is guided by our in-house technical team, led by an expert horticulturist with a Ph.D. in the field. This ensures every bunch of grapes we ship meets stringent quality standards—before it ever reaches the packing house.

## State-of-the-Art Packing Facility:

Our grapes are processed in certified packing facilities equipped with the latest automated sorting, washing, and polishing lines. Each punnet is inspected for size, sweetness, and appearance—ensuring that only the best make it into our cartons. Whether you're ordering loose cartons or clamshells, you can expect retail-ready presentation and extended shelf life.

## Why Monmon Vineyards?

1. Peak season: May to November
2. Wide variety of seedless and seeded grapes
3. Contract farming & traceability available
4. Certified sorting & packing facilities
5. Custom branding & labeling options
6. Under Leadership of Eng. Mohamed Nasr, Ph.D. horticulture specialist
7. Worldwide export by air & sea
