Our Visionary Leadership & Growth:

Under Engineer Nasr Mahmoud, Nasr Farms has become a leading agricultural enterprise and part of the Takewin Group, committed to quality, sustainability, and innovation in fresh farm produce.

Contract Farming & Growers Support:

To ensure premium-quality dates for Janaty Dates and meet export demands, we collaborate with local farmers and palm growers through contract farming, providing:

- ☑ Expanded production capacity with premium quality
- ☑ Technical support & pre-harvest assistance
- ☑ Sustainable, organic farming practices

Organic & Premium Products:

We deliver high-quality dates for local & global markets:

- ☑ Organic Medjool & Barhi Dates – Sustainably grown
- ☑ B2B & B2C Supply – Importers, Distributors & Retailer
- ☑ Export-Grade Excellence – Global quality standards

Our Commitment:

We take pride in producing our brands ensuring:

- ☑ Sustainable Farming – Eco-friendly practices
- ☑ Uncompromising Quality – Rigorous quality control
- ☑ Global Reach – Trusted in over 18 countries

Supply Chain & Cost Efficiency:

To ensure top-quality products at competitive prices, we partner with leading processing and packaging facilities across Egypt, allowing us to:

- ☑ Reduce operational costs & capital investment
- ☑ Enhance supply chain efficiency & reliability
- ☑ Deliver cost-effective, high-quality produce

MEDJOOL DATES

King of Dates

This king of dates is naturally grown in Egypt Garden' soil. The Medjool variety of dates carries a maple syrup, caramel infused like flavor, in a large sized date. Its delicious gooey texture is a treat..

Our organic date farms are nestled in a fertile oasis in the Al Wahet region of EGYPT, north of the Nile. Here, by the historic green valleys of the Nile Valley, over 100,000 date palm trees grow, basking in the temperate climate and naturally flowing sweet water for irrigation. This unique terroir lends to the inimitable taste of every JANATY Dates.

Our Production Process Medjool dates. As soon as the dates are harvested by hand, they are immediately stored to halt further ripening and lock in flavors. The fruit is then cleaned using state-of-the-art technologies, before being assessed and graded to match stringent standards for size, color, translucency and skin condition. This ensures quality, consistency and is why every JANATY Dates is the best of the best

SUKARY DATES

Queen of Dates

Our impeccable organic Sukary dates have a creamy, sweet taste and feature a distinctively creased skin. Sukary dates benefit from a smooth, sweet taste and a surprisingly crunchy bite.

Heavenly Tastes:

Available in both soft and hard varieties, this cone shaped date with prominent creases in yellow to dark gold skin is complemented by a mildly sugary flesh. When presented in its hard variety, the Sukary features crystallized sugars and offers a crisp, caramel flavor.

Nutritional Value:

Rich in fiber, carbohydrates, minerals, vitamin B complex, and proteins, offering almost all twenty amino acids. They also contain calcium, iron, magnesium, and more potassium per weight than a banana.

Available Packaging:

- Small Box: 1 KG
- Medium Box: 3 KG
- Large Box: 5 KG

WADI DATES

Golden Crown Dates

Experience the natural sweetness of Egyptian Wadi Dates, New Valley, where the most exquisite varieties of dates flourish beneath the warm embrace of the sun. These dates are celebrated for their soft texture, deep amber color, and luscious flavor.

El-Wadi dates from the desert of the New Valley, where the finest types of dates are grown under the warm sun.

Discover the essence of premium with our 100% Egyptian dates. Each bite is a testament to quality, offering a delightful experience for date lovers. Indulge in the natural sweetness and boost your energy with this healthy alternative.

Elevate your day, one bite at a time.

WAHAT DATES

Oasis Dates

Cultivated in the heart of Egypt's desert Oasis.

These dates are celebrated for their soft texture, deep amber color, and luscious flavor.

Premium Quality:

Handpicked, plump, and naturally sweet dates

Versatile Usage:

Enjoy as a healthy snack or use in desserts and recipes. A delightful treat for every occasion, combining taste and health in every bite.

These sweet delicious Dates just melt in your mouth, light amber to dark brown when ripe; with thick flesh and rich flavor.

Semi-dry dates have firmer flesh and a relatively lower moisture content than "soft" variety, and have a longer shelf-life than the fresh.

Semi- dried dates are considered a high energy-density food, due to the carbohydrate content doubles in when compared to fresh, also a better source of iron, fiber & calcium.

Available Packaging:

- Small Box: 1 KG
- Medium Box: 3 KG

EXPORT DETAILS

Our Dates are exported Globally. All products are pesticide free, 100% Natural with no preservatives or food additives, and are NON- GMO certified.
